GCOP 1320 Q

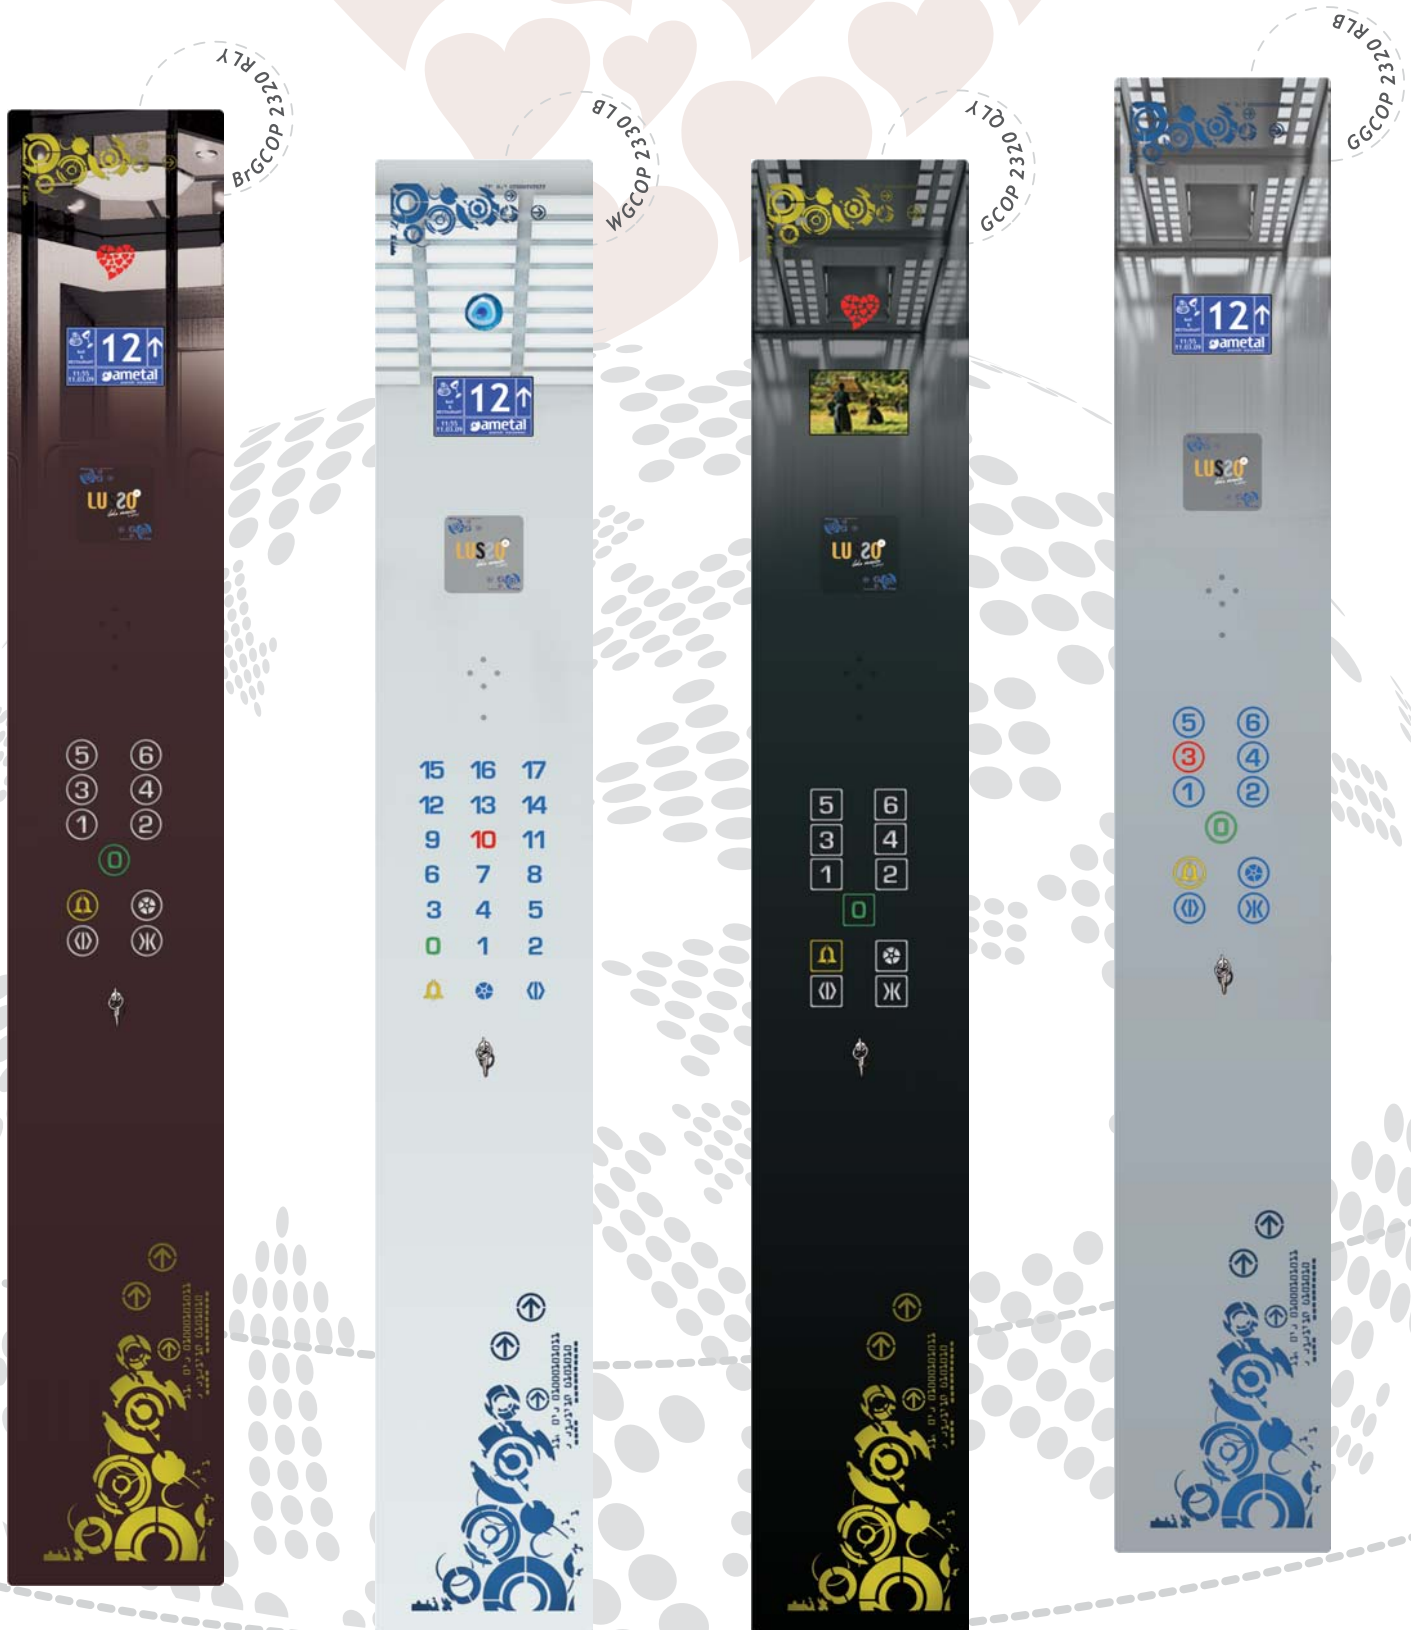

You are invited to a dream that is designed by ALPI Lusso!...

During a coffee break, aside from stress, relax with the glass operation panels that will knock you off your feet. They will be available at our showroom where you can see a range of products of colorful ideas...

FULL HEIGHT GLASS CAR OPERATION PANELS

In our production, we prefer using German brand SCHOTT AG's break-proof glass products of 4-6 mm. The standard application has the dimensions of 300 x 2050 x 4-6 mm. Car operation panels are with steel box and the depth of the box is 50 mm. Glass panel's dimensions are changeable depending on the customer's demand or the cabin decoration.

Standard color choices are; black, grey, white and brown.

Luxury is a need!
Making life comfortable
is not a luxury, it is a need.

For us, choosing Steel Color
stainless steel products is not a
luxury, it is a need. Producing car and
landing operation panels from qualified
stainless steel make cabin interior
privileged, comfort lift's travel and please
passengers.

Please contact your sales representative for more information.

In addition to the SMCOP surface mounted operation panel series, Lusso button also produces GCOP MO car operation panel series from Steel color stainless steel material (The combination of glass and stainless steel).

Please contact your sales representative for Steel Color stainless steel alternatives.
